

Creating your OneDrive account with a PC

You will need to create a Microsoft account to access OneDrive. To create your ID, follow the directions below:

1. Go to <http://onedrive.live.com/about/en-us/>
2. Click **Sign Up** to create a new OneDrive account. (You can use an existing email account or Microsoft account.)

3. Fill out the form and it will send an email to your account for verification.
4. Click the verify link in the email.
5. Go back to <http://onedrive.live.com/about/en-us/> and log in.
6. You should now be able to access your OneDrive account.
